Swing Lane (est. 2018) is a 7-unit, Supportive Housing Program providing affordable housing to Jackson Care Connect Members living with a disability. The goal of this program is to reintegrate individuals into the community by stepping down into lower levels of care or housing as they progress in their recovery. This program is conveniently located near public transportation, and just minutes from a variety of community resources.

Swing Lane offers 5-units (one unit is completely ADA accessible) of Intensive Supportive Housing with the goal of helping individuals maintain an affordable independent living situation in the open housing market. Awake staff are onsite 8am until midnight, with on-call coverage all other hours, and the Supportive Housing Supervisor/QMHP is on-site 40 hours a week. Flexible, wraparound services such as case management, skills training, supported employment and other outpatient services are tailored to the individual’s needs, and are available in the community. Clients are supported by on-site programming, which includes daily contact and support from staff.

Swing Lane also offers two 3-bedroom units (which can be shared as appropriate) of short-term, Transitional Supportive Housing where services are provided to prepare individuals for more permanent, independent living. Room and board services are provided 7 days a week, which includes the following:

- Meal preparation (3 meals a day)
- Cleaning Services
- Medication Support (an attempt to give or encourage the individual to take their medication)
- Medically Necessary Mental Health Services
- Skills Training
- 24/7 On-Call Staff for Emergencies

In addition to providing mental health treatment and habilitative care, ColumbiaCare acts as a mental health-friendly landlord. Our Property Management division carries out all property management functions. All apartments qualify for HUD funding. Tenants are responsible for their rent (or a negotiated portion thereof) and all utilities. All tenants are screened for clinical appropriateness both by ColumbiaCare and Jackson Care Connect.
