The Grant and Per Diem (GPD) Housing Case Management Program provides wraparound supportive services for up to 6 months for Veterans who were previously homeless or at-risk of losing their housing. When a Veteran transitions from homelessness to permanent housing, some may need help re-adjusting to the routines and responsibilities of managing their household affairs. This program helps ensure that formerly homeless Veterans have the tools to remain in stable housing and successfully reintegrate back into the community.

Services are focused on retaining permanent housing once placed (generally by our transitional programs such as HCHV or GPD) and may include, but are not limited to:

- Advocating with landlords and property managers
- Budgeting assistance
- Accessing community resources to help retain housing and pay past due amounts
- Referrals to appropriate services to address issues that may jeopardize housing placements
- Coordinating care with providers that Veterans are engaged with
- Limited transportation (if needed) to assist with making rental payments, accessing services or engaging with community resources
- Clinical case management (interventions) provided in the home with the goal of housing retention and community integration

To be eligible for the program, the Veteran cannot currently be receiving Case Management through alternative resources such as HUD, VASH, or SSVF, and must:

- Qualify for VA health benefits;
- Be recently graduated from GPD or HCHV housing; or
- Be a newly housed or at risk of losing housing

Program admission is contingent upon final approval after screened by GPD Program Staff.
